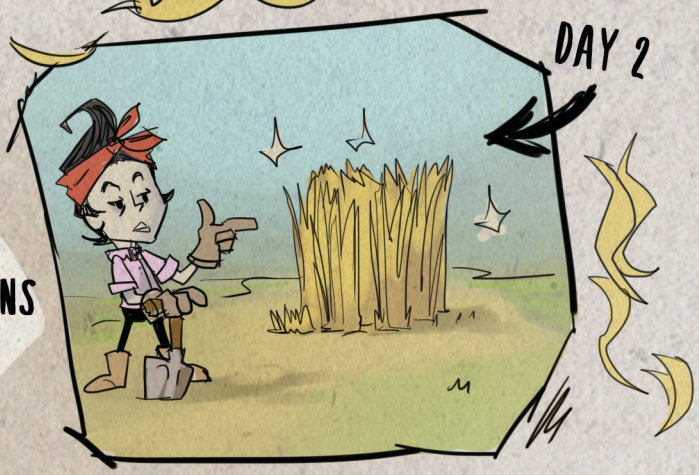
NEVERENDING GRASS

CUT GRASS IS AN ESSENTIAL RESOURCE FOR SURVIVAL.

IN THE EARLY GAME, SMALL PLANTATIONS WILL WORK JUST FINE



BUT IN MORE ADVANCED WORLDS...

THESE SMALL PLANTATIONS ARE SLOWLY REPLACED BY GECKOS!

IT CAN BE AN INCONVENIENCE IF THEY RUN FREE...

THEREFORE, IT WOULD BE A GOOD IDEA TO SURROUND YOUR CROPS WITH FENCES. IN THIS WAY, THE GECKOS WILL BE IN A CONTROLLED ENVIRONMENT

BUT WHAT HAPPENS IF YOUR GECKOS DIE?
IS IT THE END?...OF COURSE NOT!
GRASS IS A RENEWABLE RESOURCE.
THOUGH, IF ALL ELSE FAILS, YOU CAN ALWAYS COLLECT MORE FROM TUMBLEWEEDS.
